

ADOBE FLASH

BUILDING A FLASH WEBSITE

COURSE OVERVIEW

In this course, participants will learn how to make a basic Flash website. On the first day, the course will focus more on the ActionScript and particular components that are vital for a Flash Website. The Actionscript functions that they will learn are only limited to common functions found in most Flash websites.

WHO SHOULD ATTEND

This course is designed for those who wants to create and build an interactive Flash website.

PRE-REQUISITES

Participants must be familiar with the basic of Flash tools and interface, preferably completed the Adobe Flash Basic training.
